Description

Each player is dealt 7 cards. Then it's a race to get rid of them as quickly as possible. In turn, each player must play a higher card or draw another card. Look out for the wild cards which can change the course of the game: reverse, swap hands, millstones, speed challenge... anything goes. An exciting card game based on Rock, Paper Scissors but with extra exciting twists as some colours are 'worth' more than others and you could find play coming back your way!
