Description

Zircles is a fun 'strategy' game where you lay different geometric shapes & sizes that are magnetic onto a 'grid' play board. Each piece has 'part of a circle' on it's angle, try to connect pieces on the board that form a "Zircle" (circle) to score with your marker on top. Game ends when a player runs out of their geometric shaped pieces. Sound easy? Be careful, any piece left in your hand at the end of the game counts against your score! See if you can score the most points, Zircles, to win!
